

eMentoring

Partnership for Success

Mentors share...

- Professional insight and practical career advice
- Wisdom that helps younger members reach their full career potential
- Experience that contributes to the future of our industry

“I like the idea of helping the next generation... I wish I had this program when I started my career.”

*Young
professionals
and SPE student
members*

In addition to being mentored themselves, young professionals can serve as mentors to university students to help ease their transition into the working world.

Mentees gain...

- Perspective from seasoned industry professionals
- Insight on specialized fields or technical disciplines
 - Practical advice on day-to-day work issues
- Guidance on academic direction and career choices

“Having a mentor will provide me with a better perspective on the industry.”

eMentoring

Our online program transcends global boundaries – giving you an opportunity to create new friendships and exchange valuable industry knowledge.
