

SPE Liquids-Rich Basins Conference—North America

New Technology for Old Plays

About the Society of Petroleum Engineers

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 164,000 members in 144 countries are engaged in oil and gas exploration and production. SPE is a key resource for technical knowledge providing publications, events, training courses, and online resources at www.spe.org.

Register by 30 August to take advantage of the early-bird rate. Seating is limited to the first 200 attendees.

Message from the Program Chairpersons

Dear Colleague,

We are pleased to invite you to the **SPE Liquids-Rich Basins Conference—North America**. It will be held at The Petroleum Club in Midland, Texas, USA on 13–14 September 2017.

This conference is devoted to presenting the new advances in technology, operations, and best practices. There will be opportunities to hear presentations from formal paper authors, as well as invited speaker presentations. Topics will focus on asset development and operations practices, as well as the implementation of economic strategies involving survivability and positioning for the eventual economic upturn.

We look forward to seeing you at the conference in September!

Sincerely,

Raven Goswick
Permian Resources
Program Cochairperson

Amber Voithofer
Elite Optimization
Program Cochairperson

Topics to Be Explored Include:

- Integrated completion and production monitoring methods
- Liquids- and gas-rich basins: practice and activity
- Reservoir engineering in low permeability plays
- Stimulation design
- Geophysical, geomechanical, and petrophysical applications

About the Event

The SPE Liquids-Rich Basins Conference—North America returns to Midland, Texas, USA this autumn. This dynamic event will highlight innovative technologies, techniques, practices, and the development of tactics driving the development of liquids-rich formations.

Keynote Luncheon: The Evolving Permian Basin Unconventional Resource Play

Speaker: Steven Gray, RSP Permian

The technical program is finalized, and registration is now available.

Visit www.spe.org/go/LRBCWelcome to see the schedule and reserve your spot.

We will continue to send you more information about the **SPE Liquids-Rich Basins Conference—North America** in the coming weeks, so keep an eye on your mailbox.

Society of Petroleum Engineers

TRAINING COURSES

Check out the two SPE Training Courses held prior to the conference, both on 11-12 September at the DoubleTree by Hilton Midland Plaza. The courses require a separate ticket purchase from the conference.

**Shale Selection,
Completions, Fracturing
and Production**

Instructor: George E. King

Basics of Artificial Lift Systems

Instructor: Hemanta Mukherjee

Thank You To Our Conference Sponsor
