Announcement: SPE/IATMI Asia Pacific Oil & Gas Conference and Exhibition 2021 is going virtual

The COVID-19 pandemic has resulted in unprecedented and ongoing global challenges for everyone in our industry. The health and safety of our partners, attendees, exhibitors, and staff are of utmost importance.

Given the circumstances, the organising committee, IATMI and SPE have made the decision to transition the SPE/IATMI Asia Pacific Oil & Gas Conference and Exhibition (APOGCE) 2021 to a virtual event on its scheduled dates from 12-14 October 2021.

By shifting to a virtual event, we are committed to continue to provide the industry a platform for technical knowledge exchange and to connect with the industry – one which participants can access from anywhere.

We look forward to the support and collaboration of our industry and its leaders, to contribute to this event to bring the industry together through an innovative digital programme.

We would like to take this opportunity to thank you and your organisations for your continued support and participation in APOGCE 2021.

Sincerely,

Henricus Herwin
