Kuala Lumpur, Malaysia (4 October 2010) – The 7th collaboration between the Society of Petroleum Engineers (SPE) and the Society of Indonesian Petroleum Engineers (IATMI) of the Asia Pacific Oil & Gas Conference and Exhibition (APOGCE) is scheduled 20-22 September 2011 at the Jakarta Convention Centre in Jakarta, Indonesia. APOGCE is the premier industry event held annually in the Asia Pacific region, creating the ideal opportunity to focus on the progress of the oil and gas industry across the area, a region known for its diversity, opportunity and capacity for growth.

The 2011 APOGCE theme is “*Business and Technology Innovation to Ensure Sustainable Energy*”. As the petroleum industry faces ever increasing energy demands, worldwide senior executives and industry professionals will meet to discuss the importance of collaboration and the opportunities for new technologies in ensuring a durable and successful future for the oil and gas sector.

R. Priyono, Chairman of BPMIGAS, the 2011 APOGCE Advisory Committee Chairman is leading a group of government officers and senior industry executives, including, Dr. Evita Legowo, Advisor to the Minister of Energy & Mineral Resources, Indonesia; Karen Agustiawan, President and CEO, PT PERTAMINA (Presero); Dr. Hadi Purnomo, Energy and Mineral Resources; Dr. R.S. Trijana Kartoatmodjo; Dr. Priyambodo Mulyosudirjo; Dr. Abdul Muin; Dr. Bagus Sudaryanto, Director of Operations, PT PERTAMINA EP; Kevin Moore, General Manager, Husky Oil Indonesia; and Fauzi Imron, General Manager, Block-A Asset, PT Medco E&P Indonesia, in providing support to Salis Aprilian, President Director of PT PERTAMINA E&P is the event’s General Chairman. The Conduct Committee Chairman is Joang Laksanto, Manager, Government Relations & Support Department, Medco E&P Indonesia and the Conduct Committee Vice-Chairman is Saad Ulaby, Marketing

Director, Schlumberger Oilfield Services Indonesia. The Technical Programme Committee Chairman is John D. Stenson, Operations Technical Manager, ExxonMobil Oil Indonesia and the Technical Programme Committee Vice-Chairman is Ego Syahrial, Head of Exploitation Research and Development Programme, Lemigas.

The comprehensive conference agenda will feature an extensive technical programme, along with executive plenary session, panel sessions, a technical exhibition, a young professional workshop, PetroBowl, an education day and a teachers’ day.

For more information on the full technical programme, delegate registration or how your company can participate as a sponsor or exhibitor please visit www.spe.org/events/apogce/2011, contact Ms. Belinda Sum, SPE Event Manager at bsum@spe.org or the SPE Asia Pacific Office at tel: +60.3.2288.1233.

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose members are engaged in energy resources development and production. SPE serves 92,000-plus members from more than 117 countries worldwide. SPE is a key resource for technical knowledge related to the oil and gas exploration and production industry and provides services through its publications, conferences, workshops, forums, and Web site at www.spe.org.

The Society of Indonesian Petroleum Engineers (IATMI) is a professional organisation. It is a vehicle for its members in every sector of the oil and gas industry to further its quest in advancing the development of education and training and initiating research projects. Another important role of IATMI is to complement and provide valuable information to the government. In all of IATMI’s activities, IATMI seeks assistance and cooperation with other professional organisations nationally or internationally. IATMI’s head office is in Jakarta. At present, its membership of almost 2,400 professionals is spread throughout the nation in several districts (known as Komisariat) and has representatives overseas. For more information, visit the IATMI website at www.iatmi.or.id.
