¹Includes crude oil, lease condensates, natural gas plant liquids, other hydrocarbons for refinery feedstocks, refinery gains, alcohol, and liquids produced from nonconventional sources.

Achieve Higher Ultimate Recovery

REASON 1: Packers Plus open hole completion systems increase long-term production resulting in higher ultimate recovery.

It's easy to get caught up in the day-to-day activities. But what about the big picture? Have you stopped lately to think about where your production numbers are taking you?

At Packers Plus, we know about long-term results and our open hole, multi-stage completions can improve your production numbers. Our system reaches more

of the reservoir and is more effective at draining the pay, resulting in higher ultimate recovery.

Visit our website or talk to us today. We'll show you how you can increase your long-term production results and gain more value from your wells.
