

DIGIMAG COMPATIBILITY REQUIREMENTS

Our publication platform is compatible with several browsers on various operating systems. The following browsers are officially supported:

- Firefox 3.x (Windows, Mac, Linux)
- Internet Explorer 8.x (Windows)
- Internet Explorer 7.x (Windows)
- Safari 4.x, 5.x (Windows, Mac)

Although we do not officially support the browsers listed below, they have been reported to work with our publication platform:

- Chrome 2.x (Windows)
- Camino 1.6.x (Mac)
- Konqueror 4.2.x (Linux)
- Opera 9+

Using older browsers, non-compatible browsers or disabling browser features, such as Javascript, Flash, cookies and SSL, may reduce platform functionality.

Please note that only the 32-bit versions of the browsers listed above are compatible. There is currently no Flash support for 64-bit browsers.

Adobe Flash

The Adobe Flash Player plugin (version 8 or higher) must be installed for your particular browser to view the Flash version of the publication platform.

Firewall/Proxies

If you are accessing our website through a firewall or proxy, check with your network administrator to determine if cookies are permitted. Also if you are using a proxy (depending on your settings) you may not always be viewing the most current version of the publication platform.

Pop-Up Blockers

If you have a pop-up blocker installed, it may also prevent some functionality on the publication platform.

Mobile Device Support

The following mobile devices are officially supported:

- Apple iPhone (any version)
- Apple iPod (any version)
- Apple iPad (any version)

Notes

1. Support for Internet Explorer 6 has been discontinued as of December 31, 2009.
2. Works only with the Flash version of the publication platform.
