

# SPE PEER-REVIEWED JOURNALS

SPE journals deliver knowledge of the highest technical integrity—each paper has been judged by respected experts to be technically significant. Get the latest applications related to your technical discipline delivered to your mailbox or online.

More information available at [www.spe.org/journals](http://www.spe.org/journals)

## SPE Drilling & Completion

- Horizontal/directional drilling
- Drilling fluids
- Bit technology
- Sand control
- Perforating
- Cementing
- Well control
- Completions

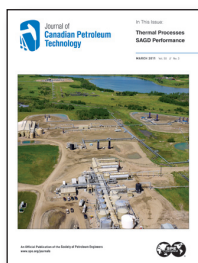

Published quarterly in March, June, September, December

## SPE Production & Operations

- Acidizing
- Artificial lift
- Chemical treatment
- Downhole equipment
- Formation damage control
- Hydraulic fracturing
- Multiphase flow
- Production logging
- Well stimulation
- Workovers

Published quarterly in February, May, August, November

## Journal of Canadian Petroleum Technology

- Heavy oil/oil sands
- Thermal recovery/SAGD
- Unconventional gas (CBM, shale)
- Improved recovery/mature fields
- Technology focused on Canada with applications around the world

Published bimonthly in January, March, May, July, September, November

## SPE Reservoir Evaluation & Engineering

- Reservoir characterization
- Geology/geophysics
- Petrophysics
- Geostatistics
- Core analysis
- Well logging and testing
- Reservoir management
- Enhanced recovery mechanisms
- PVT analysis
- Fluid mechanics
- Performance prediction
- Reservoir simulation

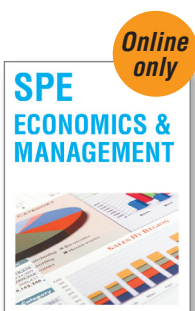

Published bimonthly in February, April, June, August, October, December

## SPE Journal Research and Theoretical Aspects of E&P

- Fundamental research papers across all disciplines
- Numerical studies
- Theoretical analysis
- Laboratory and field research
- Emerging concepts

Published quarterly in March, June, September, December

## SPE Economics & Management

- Business side of petroleum engineering
- Petroleum economics
- Resource/reserve evaluation
- Portfolio/asset management
- Risk assessment
- Systems modeling/forecasting
- Benchmarking/performance indicators
- Strategic decision making
- Information/knowledge management

Published quarterly in January, April, July, October

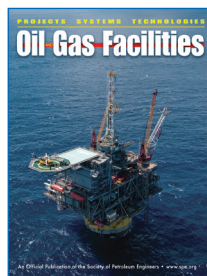

## OTHER PERIODICALS

## Journal of Petroleum Technology

is SPE's monthly magazine for members and anyone interested in petroleum technology. Each issue includes three to four technical topics featuring some of the best papers from SPE conferences over the prior year. These papers are selected by the JPT Editorial Board, rather than through peer review.

Published monthly in print and online at [JPTOnline.org](http://JPTOnline.org)

## Oil and Gas Facilities

is a new bimonthly magazine that focuses on emerging topics important to projects, facilities, and construction professionals. Each issue will include peer-reviewed technical papers, as well as editorial features that include industry and technical news.

Published bimonthly in February, April, June, August, October, December

## 2012 SUBSCRIPTION PRICING

### INSTITUTIONAL RATES for colleges, universities, research institutes, public libraries, and government agencies

Rates are in US Dollars	All Other Countries (Category 2) <sup>1</sup>		World Bank High-Income Countries (Category 1) <sup>1</sup>		OnePetro Unlimited Subscribers Only
	Print Only	Print + Online <sup>2</sup>	Print Only	Print + Online <sup>2</sup>	Online Only <sup>2,3</sup>
SPE Drilling & Completion	270	370	380	490	190
SPE Production & Operations	270	370	380	490	190

<sup>5</sup> Replaces SPE Projects, Facilities & Construction.

<sup>6</sup> Online version of JPT is free to all website visitors. Print + online prices reflect print for JPT.

**SPE reserves the right to make a determination which rate applies to an organization.** Government agencies are defined as a government office/branch that is primarily engaged in research or regulatory activities. Government funding does not qualify an organization for the institutional rate. National oil and gas companies do not qualify as government agencies. SPE requires that subscription agencies supply the name and location of their customer ordering the subscription so that SPE can make this eligibility determination.

**All subscriptions must be paid in full prior to issue delivery.** Journals are supplied on a calendar year basis unless otherwise requested. Availability of print issues cannot be guaranteed for subscriptions or renewals submitted after 13 January 2012. Due to printing commitments, refunds for cancellations are not made on unused portions of subscriptions.

**Claims for missing issues** will be met, if inventory is available and if claim is made within 120 days of the shipment date for the issue. If the claim is due to an address change of which SPE was not informed, the customer may be asked to pay shipping charges for delivery of claimed issues.

**Please promptly notify SPE of any address changes**, indicating which journal subscriptions are affected. Notifications to SPE can be submitted by email to [journals@spe.org](mailto:journals@spe.org) or in writing to **Journal Subscriptions, Society of Petroleum Engineers, P.O. Box 833836, Richardson, TX 75083-3836.**
