Society of Petroleum Engineers

The new bimonthly *Oil and Gas Facilities* magazine, published by the Society of Petroleum Engineers, covers the expanding market of integrated project development.

When you advertise, your message will reach decision makers on the front lines of cutting edge projects. Each issue will feature guest articles from key industry executives and a column by Paul Jones, Technology Center Manager, Chevron—a noted expert in the discipline of projects, facilities, and construction.

Our staff-written articles and in-depth project analyses offer readers innovative approaches to improved quality, safety, and efficiency.

**Targeted first year circulation: 5,000–6,000**

#### Each issue will include such features as:

- subsea facilities
- corrosion mitigation
- processing systems and design
- floating production solutions
- flow assurance
- facilities and construction project management

#### Bonus distribution at key conferences in 2012:

- Latin America and Caribbean Petroleum Engineering Conference, 16–18 April
- Offshore Technology Conference, 30 April–3 May
- SPE Annual Technical Conference and Exhibition, 8–10 October
- Russian Oil and Gas Exploration and Production Technical Conference and Exhibition, 16–18 October
- Asia Pacific Oil and Gas Conference and Exhibition, 22–24 October

## About Society of Petroleum Engineers

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose members are engaged in energy resources development and production. SPE serves more than 97,000 members in 118 countries worldwide. SPE is a key resource for technical knowledge related to the oil and gas exploration and production industry and provides services through its publications, events, training courses, and online resources at [www.spe.org](http://www.spe.org).

Advertising income from the *Oil and Gas Facilities* magazine will be invested back into the Society to provide even more opportunities for industry professionals to enhance their technical and professional competence.
