Society of Petroleum Engineers

Celebrating 75 years
Energy for generations

Join in a 75-year partnership of bringing energy to the world.

75 years ago, the successful collaboration between Saudi Arabia and U.S. oil companies led to the discovery of the greatest energy reserves the world has ever known. Today, the employees at Saudi Aramco are still working together in our quest to remain the world's most reliable supplier of energy for generations to come.

What is your role in meeting global energy needs?

To pursue a challenging and rewarding career with an industry leader,

Knockoffs are a Waste of Time.

There is only one.

Hughes Christensen developed the first roller cone bit nearly 100 years ago. And the competition's been trying to catch up ever since. But it isn't easy to match the pace of the industry leader. Our culture dictates continuous improvement 24x7x365. Factor in the industry's largest R&E spend and it's easy to see why the other guys can't keep up.

If you haven't experienced the precision performance of a Tricone bit... the clock's ticking.

Hughes Christensen

Best-in-Class
