Tight Gas Completions Conference

9–11 June 2008 | Marriott Rivercenter Hotel | San Antonio, Texas, USA

The Conference

The Tight Gas Completions Conference will focus on best practices, lessons learned and case studies relevant to the South Texas market. Major improvements in technology and best practices have greatly increased the success rate in tight gas prospects. While specialized, these developments, techniques and applications reflect the specific chemistry and geology of the region. Experts will discuss a variety of issues listed in the conference topics below.

This conference, new for 2008, is the perfect opportunity for prospective exhibitors to meet with the focused audience of professionals working in the tight gas completions market. More than 200 professionals in fields ranging from asset and project management to reservoir engineering and evaluation to production and well completions will attend.

Conference topics will include

- Well and completion architecture
- Operational innovations
- Reservoir and geological considerations for completion technology
- Fracture and re-fracture technology
- Production challenges—multi-stage performance, artificial lift, scale and corrosion
- Value-adding strategies for initial and maturing fields

Why exhibit?

- Meet face-to-face with your clients.
- Reach professionals interested in all aspects of the tight gas completions process.
- Showcase your company's expertise.
- Introduce new technology to a knowledgeable audience.
- Acquire valuable sales contacts.

What will I receive?

- Standard booth draping (8-ft high back wall and 3-ft high side rails) and company ID sign
- Two (2) complimentary Full Conference Registrations (including all meal functions) per 100 sq ft of space, which includes admittance to
 - Sessions
 - Monday and Tuesday receptions
 - Tuesday and Wednesday luncheons
 - All networking breaks
- Company listing in the Conference Preview and on-site Program (if contract received by printing deadlines)
- Logo and link to exhibitor's website and a 50-word description on the *Proceedings* CD
- One copy of the *Proceedings* CD mailed to the primary contact after the event
- Post-show attendee list
- Unique advertising and promotion opportunities to help increase your company's exposure

How do I exhibit?

- Review exhibit information carefully.
- Complete and return the Application/Contract for Exhibit Space with your full payment.

Space is assigned on a first-come, first-served basis.

Maximize Your Exposure

The 2008 SPE Tight Gas Completions Conference offers a variety of unique opportunities to increase your visibility and maximize your exposure. From corporate level to special event sponsorships, we can offer you a customized program to meet your company's marketing objectives.
