

Access with IP validation:

Unlimited Subscription Access with IP validation:

1. Unlimited Subscription access with IP validation means that the user should be able to see a link directly to the PDF from either the search results or the preview page.
2. The user never needs to login
3. The user will never add papers to his or her cart that are covered by the subscription.
4. (*For OTC and SPE only subscriptions, the PDF link will **only** show up for OTC or SPE papers. All other papers must be added to the cart)

What the user should see:

It will **not** show that they are logged in.

**they can be logged in, but it isn't required.*
