About the Society of Petroleum Engineers

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 168,000 members in 144 countries are engaged in oil and gas exploration and production. SPE is a key resource for technical knowledge providing publications, events, training courses, and online resources at www.spe.org.

Income from this event will be invested back into SPE to support many other Society programs. When you attend an SPE event, you help provide even more opportunities for industry professionals to enhance their technical and professional competence. Scholarships, certification, the Distinguished Lecturer program, and SPE's energy education program Energy4me are just a few examples of programs that are supported by SPE.

Exhibition Highlights

The **SPE Artificial Lift Conference and Exhibition—North America** focuses on case studies and best practices in artificial lift applications, primarily for unconventional shale developments. We are expecting more than 25 exhibits with the latest technologies, products, and solutions to be showcased at the event.

Exhibition Hours:

Tuesday, 25 October: 1000–1830; **Wednesday, 26 October:** 1000–1400

Exhibitors (as of 2 September 2016)

Arnold Magnetic Technologies	Echometer Company	Mingo Manufacturing
Artificial Lift Performance Ltd	ESP Completion Technologies	Premium Artificial Lift Systems Ltd.
Baker Hughes	Exceed Oilfield Equipment Inc	Production Plus Energy Services
Black Gold Pump & Supply Inc	Forland Group Inc	Schlumberger
Borets	Gyrodata	Sercel-GRC
Bright Automation, Inc.	Halliburton	Summit ESP
Cormorant Engineering	HOOS Energy	Taurus Engineering
Definitive Optimization	JHK Oilfield Products Ltd.	Tenaris
DistributionNOW	LEUTERT	Tubel Energy
Dover Artificial Lift	Lightning Rod & Pipe (LRP, LLC)	Weatherford
Eaglerise Power Systems Inc	Materion Performance Alloys	

Special Events

TUESDAY, 25 OCTOBER

Don't miss the Plenary Session immediately prior to the exhibition:

The Well Production Life Cycle: When Is the Right Time to Transition From Flowing to Lift and When to Change Between Lift Methods

Moderator: Shauna Noonan, Occidental Petroleum

Speakers: Bill Lane, Weatherford; Greg Stephenson, ConocoPhillips; Libby Einhorn, Concho

Keynote Luncheon: Artificial Lift: Integration from Ore to Pipeline

Speaker: Kyel Hodenfield, Schlumberger

WEDNESDAY, 26 OCTOBER

Plan to attend the Keynote Luncheon running concurrently with the exhibition:

The Artificial Lift Culture Change

Speaker: Jody Elliott, Occidental Petroleum

THURSDAY, 27 OCTOBER

Legends in Artificial Lift Awards Luncheon

Speaker: Jeff Spath, Texas Oil and Gas Institute

SPE Training Courses

SPE is offering two training courses to make the most of your time at the conference. Enhance your professional development by attending an SPE Training Course. Both of these two-day courses run immediately after the conference, from 28–29 October.

Basics of Artificial Lift Systems

Instructor: Hemanta Mukherjee

Principles of Well Performance:

Artificial Lift and Gas Well Deliquification

Instructor: Bob Pearson

Registration for this conference is now available.

Visit www.spe.org/go/ALCEHighlights to learn more.
