SPE Liquids-Rich Basins Conference—North America

New Technology for Old Plays

13–14 September 2017
The Petroleum Club
Midland, Texas USA

www.spe.org/go/LRBCHighlights

Society of Petroleum Engineers

Two 2-day courses are available prior to the conference (11–12 September, from 0800–1700 hours); separate registration is required.

Shale Selection, Completions, Fracturing and Production

Instructor: **George E. King**

This course acquaints participants with the basics of oil and gas shale evaluation and current shale selection, well completion, fracturing, and production technologies for shale reservoirs.

Basics of Artificial Lift Systems

Instructor: **Hemanta Mukherjee**

This course presents a complete overview of the most widely used artificial lift systems in the oil and gas industry.

Keynote Luncheon: The Evolving Permian Basin Unconventional Resource Play

Speaker: **Steven Gray**: CEO, RSP Permian

Gray's presentation will focus on the history of the play and what his company has learned from drilling more than 200 horizontal wells in the basin. It will touch on topics relating to the evolution of well completions and well spacing. Gray will also offer insight regarding the future of the basin and where we go from here.

Technical Program (as of 16 August 2017)

Day 1: Wednesday, 13 September

- Strategic Decision Making
- Liquids and Gas-Rich Basins: Practice and Activity
- Production Operations
- Integrated Completion and Production Monitoring Methods

Day 2: Thursday, 14 September

- Reservoir Engineering in Low Permeability Plays
- Drilling and Completions
- Stimulation Design
- Panel: Completion Intensity and the Impact on Development

PLUS CHECK OUT THE KNOWLEDGE SHARING POSTER PRESENTATIONS, HAPPENING BOTH DAYS.

Register by 30 August 2017 to save USD 100.

About the Society of Petroleum Engineers

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 164,000 members in 143 countries are engaged in oil and gas exploration and production. SPE is a key resource for technical knowledge providing publications, events, training courses, and online resources at www.spe.org.
