

Society of Petroleum Engineers

SPE International Conference on Oilfield Chemistry

8–9 April 2019

Moody Gardens Hotel and Convention Center
Galveston, Texas, USA

www.spe.org/go/exhibitoilfield

Exhibition and Sponsorship Opportunities

Exhibits, Sponsorship, and Advertising Opportunities Available!

The SPE International Conference on Oilfield Chemistry exposes attendees to your company and promotes your presence within the industry. Don't miss out on the opportunity to showcase your company's products and services, increase awareness of your company's brand, and demonstrate your organization's commitment to the industry professionals and leaders in attendance.

About the Conference

Biennially, the SPE International Conference on Oilfield Chemistry focuses on new and innovative oilfield chemistry applications and information. The event hallmarks the vital chemistry and chemicals industry sector with presentations and papers covering laboratory studies, simulations, and field applications, critical in all stages of oil and gas production/processing operations. Attendees include E&P professionals, service companies, and academia.

Sponsorship Benefits

- Prominent on-site signage throughout the conference
- Recognition in the conference program
- Recognition on the conference website
- Recognition on the presentation shown between technical sessions

Exhibitor Benefits and Support

- Forge new business relationships and strengthen existing relationships
- Engage with industry leaders and officials
- Secure deals face-to-face
- Generate more sales leads
- Gain more exposure through a company listing in the conference program

About The Society of Petroleum Engineers

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose more than 158,000 members in 143 countries are engaged in oil and gas exploration and production. SPE is a key resource for technical knowledge providing publications, events, training courses, and online resources at www.spe.org.

Income from this event will be invested back into SPE to support many other Society programs. When you attend an SPE event, you help provide even more opportunities for industry professionals to enhance their technical and professional competence.

Audience Profile

Primary Area of Technical Interest*

Production and Operations	51%
Drilling	34%
Reservoir Description and Dynamics	6%
Management and Information	6%
Projects Facilities and Construction	3%

What Attendees Say About the Event*

91%

of attendees would recommend the event to their peers and colleagues

100%

of event attendees visited the exhibition during the conference

100%

of attendees rated the exhibition favorably

What Exhibitors Say About the Event*

100%

were satisfied with the value of the company's participation

94%

were satisfied with the visibility of the company

* Statistics based on 2017 SPE International Symposium on Oilfield Chemistry attendee data and exhibitor survey results.
