Sponsorship Packages

SPE Workshop: Intelligent and Advanced Wellbore Technologies

2-3 June 2020 | Hudson | Calgary, Alberta, Canada

About this Workshop

Over the last 20 years, intelligent wellbore technologies have evolved from piloting and trial-testing, to field implementation. Access to new data has allowed operators to better understand the downhole conditions for optimizing production. Still, it remains a daunting task.

This informative, two-day workshop will feature presentations, panel discussions, and networking opportunities to create dialogue around the current state of intelligent well technologies – with a balance of both thermal, conventional, and unconventional application – in western Canada and abroad.

Why Sponsor?

Sponsorship support helps offset the cost of producing workshops and allows SPE to keep the attendance price within reach of operation level individuals, those who benefit most from these technical workshops.

Sponsors benefit both directly and indirectly by having their name associated with a specific workshop. Workshops typically average 100-200 attendees, offering sponsors unique access to a focused group of key decision-makers in the operating community. This is an informed audience discussing state-of-the-art technology and best practices. While SPE prohibits any type of commercialism within the meeting room itself, the society recognizes that sponsoring companies offer valuable information to attendees outside the technical sessions.

Talk to us about custom sponsorship packages if the below options are not the right fit for your needs. We are flexible and open to new ideas.
All sponsorship packages include:

- Recognition on the workshop website, including a link to your company’s website
- Recognition in the workshop program
- Recognition on the sponsorship slide displayed between technical sessions
- Final attendee list given to sponsor following workshop

TECHNOLOGY SHOWCASE:
CAD 2,000 + GST (8 Available)

SPE's Technology Showcase is an opportunity for operators, service companies, and consultants to showcase their technologies to a unique focused group of key decision-makers in the oil and gas community. The Showcase consists of tabletop exhibits and/or poster stations setup in the networking area of the workshop. While SPE prohibits any type of commercialism within the meeting room itself, we recognize that our networking breaks (breakfast, coffee, lunch and receptions) offer a more informal atmosphere in which technology can be presented and discussed.

- 6 ft. draped table plus two (2) chairs will be provided
- Electricity and internet will be provided
- Companies are to bring their own self-supporting signs/displays, laptops, etc.

*Registration to the workshop is not included
