

## Learn More About Our Health & Safety Guidelines

As SPE Canada returns to in-person events, safety will be our primary concern. Attendance at events will be limited and we will be implementing the Restrictions Exemption Program (REP). We are counting on industry support to make our upcoming events a success!

Please see below for a detailed overview of the actions we are taking to protect our community and control the spread of COVID-19.

### Restrictions Exemption Program (REP)

The Restrictions Exemption Program (REP), as mandated by the Government of Alberta requires that attendees:

- show photo ID and proof of double vaccination\*\*, OR
- proof of a privately-paid negative rapid test result taken within 72 hours, OR
- documentation of a medical exemption

### Elevator Access

- Elevator access will be dictated by the building that houses each venue. Signage and floor markers will instruct how many guests are permitted per elevator.

### Exhibitor Preparations

Exhibiting Companies Must:

- Provide sanitization supplies and disinfecting products for their booth
- Routinely disinfect their booth, equipment and materials
- Comply with venue and event-specific guidelines, terms, and conditions

**\*\*We will accept both paper and digital proof of vaccination from any accredited organization. \*\*Albertans must provide proof via a QR Code.**

### Mandatory Masks

Masks remain mandatory in all indoor settings. At restaurants, guests must be masked when entering and exiting the venue. Masks are not required while a guest is actively eating or drinking, this includes a standing cocktail reception.

### Venue Safety

- The following areas are disinfected at regular intervals:
  - Door handles
  - Railings
  - Guest and staff washrooms (door handles, hand wash faucet handles, toilet flush handles, dryers, soap dispensers)
- Hand sanitizer is available for guests and staff at all entrances of the venue.
- The following surfaces are sanitized frequently:
  - Guest tables and chairs
  - Kitchen surfaces
  - Serving stations
- Enough seating will be provided so that social distancing is an option for attendees
