Message from the Technical Programme Chair

Dear Colleagues,

It is our pleasure to invite you to participate and showcase your technical and innovative solutions, services, and developments at the SPE Asia Pacific Oil & Gas Conference and Exhibition (APOGCE), scheduled from 17-19 October in Adelaide, Australia.

APOGCE is the premier upstream technical conference in the Asia Pacific region. The event gathers regional and global distinguished leaders, subject matter experts, technical professionals, and practitioners across the energy value chain to share the latest knowledge, best practices, and innovations.

As an industry, we are experiencing significant change as the world aspires to an energy transition towards net zero carbon emissions. Simultaneously, we have been impacted by a pandemic that has had tragic consequences for communities around the globe, changed our way of working, and introduced greater economic uncertainty. As we emerge from the COVID-19 pandemic, not only is there challenge, but there is also opportunity to improve, learn and adapt in an ever-changing world.

Addressing these challenges and opportunities requires collaboration, bringing the industry and its leaders together to share and discuss the latest insights, experience, learnings, and technology developments that will make a difference in **Leading a Sustainable Future of Accessible and Responsible Energy, the theme of SPE APOGCE 2022.**

To facilitate this collaboration, more than 100 authors will present papers over 19 technical sessions. The conference will also include panel sessions where business leaders, government representatives, and industry experts will discuss topics revolving around the conference theme including energy security and supply, the role of petroleum engineering in a net zero carbon emissions world, and decarbonisation of the upstream oil and gas industry.

There will be an exhibition featuring companies and service providers showcasing their latest technologies and capabilities. Additionally, there is a Regional Student Paper Contest and Energy4Me Education Day, both aimed at inspiring, involving and attracting a new generation of talented individuals - essential to the future of our industry.

Importantly, in an age of many video conference calls, there will be many opportunities to network, to reconnect with old colleagues or meet new ones during this in-person event.

We thank you in advance for your support of the 2022 conference. On behalf of the Organising Committees, we look forward to welcoming you to Adelaide and to APOGCE 2022.

Sincerely,
