

**SPE/IATMI ASIA PACIFIC OIL & GAS CONFERENCE AND EXHIBITION (APOGCE)
10- 12 October 2023 • Jakarta, Indonesia**

SKK Migas is proud to be the Official Supporter of the SPE/IATMI Asia Pacific Oil & Gas Conference and Exhibition (APOGCE) 2023. As the Chairman of SKK Migas, I am pleased to invite you and your organisation to participate in this important multidisciplinary event to be held from 10 - 12 October 2023 in Jakarta, Indonesia.

APOGCE is the regional flagship event for SPE (Society of Petroleum Engineers) and IATMI (Society of Indonesian Petroleum Engineers). Its presence and history in Indonesia and the region have cemented its status as one of the foremost energy industry event in Asia Pacific that brings together energy companies, industry leaders and technical professionals for knowledge exchange and technology transfer.

Global challenges have very much impacted the energy industry over the last year, escalating the need for sustainable, secure, and affordable energy. Indonesia continues to strive towards the goal of **1 million barrels oil per day (MMBOPD) and 12 billion standard cubic feet per day (BSCFD) gas in 2030** to meet our national energy demand.

This year's theme, **Managing the Base During the Net Zero Transition**, will focus on technical excellence and operational fundamentals to ensure production and business objectives remain uninterrupted during the net zero transition.

SKK Migas looks forward to the technical and business exchange that will take place at APOGCE amongst regional and international industry leaders and professionals as they come together to discuss opportunities and critical progress to advance the industry together.

We trust that you and your organisation will fully support this event and leverage this opportunity to participate as a sponsor, exhibitor and/or attendee at APOGCE 2023.

See you all in Jakarta, Indonesia.

 Best regards,

Y Dwi Soetjipto
Chairman
SKK Migas
