

Forum Series History

1979

North America

- Properties of Saturated Rocks of Interest to Petrophysicists and Geophysicists
- The Physical Control of Solids in Drilling Fluids

1980

North America

- Earth Stresses: Their Relationship to Petroleum Production
- Residual Oil Saturation Determination
- Well Blowout Control

1981

North America

- Mechanics of Drilling at the Bit
- Relative Permeability and Wettability
- Completion Fluids
- Field Handling of Polymers

1982

North America

- Primary Cementing
- InSitu Combustion
- Well Design
- Water Treatment Injection and Disposal

1983

North America

- Reservoir Definition
- Directional Drilling
- Oil Country Tubulars
- Well Stimulation

1984

North America

- Analysis and Production of Miscible Flood Performance
- Sour Gas Designs and Operation
- Flow of Gas and Aqueous Solutions of Surfactants (Foams)
- Measurement While Drilling

1985

North America

- Drilling and Completion Fluids
- Naturally Fractured Reservoirs
- Well Blowout Control
- Open Hole Logging
- Design and Interpretation of Pilots
- The Use of Steam for Enhanced Oil Recovery

1986

North America

- Technology Transfer
- Well Testing
- Reservoir Mechanics of Chemical Flooding
- Applications of Simulators and Computers to the Drilling Process
- The Use of Reservoir Simulators
- New Developments in Artificial Lift

1987

North America

- The Control of Sand Entry into the Wellbore
- Wettability and Relative Permeability
- Horizontal Drilling
- Improved Reservoir Description
- Monitoring Performance of FullScale

1988

North America

- Application of Rock Mechanics to Drilling and Completion Practices
- Primary Cementing
- Water Quality Issues - Handling and Treatment of Produced and Injected Waters
- Reservoir Conformance Enhancement-Polymers, Gels, and Foams
- Use of Computers in Production Operations

Europe

- Reservoir Characterization
- Horizontal Well Production

1989

North America

- Reservoir Engineering and Completion Aspects of Horizontal Wells
- Stimulation-Advances in the Development and Application of New Technology for Reservoir Damage Control; Prevention, Analysis and Removal
- Naturally Fractured Reservoirs
- Scientific and Engineering Impact on Environmental Regulations
- Advances in Reservoir Management and Field Applications

Europe

- Modelling of Naturally Fractured Reservoirs
- Development of Smaller Hydrocarbon Reserves in Mature Offshore Areas
- Design of Completions and Their Operations Efficiency in the Offshore Environment

1990

North America

- Borehole Stability
- Rheology of Fracturing and Gravel-Packing Fluids
- Advances in Formation Evaluation and Reservoir Characterization
- EOR Operations in Low Oil Price Environment
- Maintenance and Utilization of "Old" Wellbores

Europe

- New Development in Stimulation Techniques
- Automation of Production Operations
- Advances in the Field of Fluid Flow and Phase Behavior in Hydrocarbon Recovery Processes

1991

North America

Mt. Crested Butte, Colorado, USA

- Advances in Measurement While Drilling - 14-19 July
- New Developments in Artificial Lift – 21-26 July
- Applications of Reservoir Characterization to Numerical Modelling and Reservoir Management - 28 July – 2 August
- Expert Systems for Engineering Applications – 4-9 August
- Application of Technology to Waste Management in Exploration and Production Operations – 11-16 August
- Effective Utilization of Cased Hole Logging – 11-16 August

Europe

Grindelwald, Switzerland

- Preserving the Environment From the Impact of Drilling Fluids – 8-13 September
- Managing Uncertainties in Field Development Planning and Reservoir Modelling – 15-20 September
- The Operational Impact of Production Chemistry – 22-27 September

1992

North America

Snowmass Village, Colorado, USA

- Special Core Analysis and Applications to Reservoir Engineering - 12-17 July
- Gas Reservoir Engineering – 19-24 July
- Advances in Drilling Fluids – 26-31 July
- Multiphase Flow, Pumping, and Separation Technology - 2-7 August
- Current Coil Tubing Technology - 9-14 August
- Completion of Horizontal Wells – 16-21 August

Europe

- Horizontal Well as a New Basis for Reservoir Description
- Advances in Well Test Design and Interpretation
- Sand Control and Gravel Packing

Middle East

- Factors for Successful Reservoir Performance Using Water Injection

Asia Pacific

- Wellbore and Formation Damage Related to Completion Practices

1993

North America

Snowmass Village, Colorado, USA

- Reservoir Fluids: Phase Behavior and Physical Properties – 11-16 July
- Slim-Hole Production and Exploration - 18-23 July
- Pore Pressure Estimation and Detection – 1-6 August
- Advances in Conformance Control - 8-13 August
- Advances in Hydraulic Fracturing – 15-20 August

Europe

Seefeld, Austria

- The Role of Reservoir Monitoring and Surveillance in Reservoir Management – 12-17 September
- Trends in Subsea Production Systems – 19-24 September
- Dynamic Drill String Behaviour and Failure- Cost or Opportunity? – 26 September – 1 October

Middle East

Dubai, UAE

- Interdisciplinary Approach to Reservoir Characterization – 4-9 December

Asia Pacific

Bali, Indonesia

- Near-Wellbore Stimulation - 9-14 May

1994

Asia Pacific

Nusa Dua, Indonesia

- Borehole Stability and the Role of Rock Mechanics – 15-20 May

North America

Snowmass Village, Colorado, USA

- Emerging Applications of Cost-Effective Computing in Reservoir Engineering – 10-15 July
- Pollution Prevention for Exploration and Production Operations (Related Technologies) – 17-22 July
- Emerging Applications of Logging Technology – 24-29 July
- Perforating – 31 July – 5 August

Europe

Seefeld, Austria

- Gas Condensate Reservoirs - 4-9 September
- Management of the Drilling Process - What Next? - 11-16 September 1994
- High Pressure High Temperature Completions - 18-23 September

South America and Caribbean

Angra Dos Reis, Brazil

- The Role of Subsea Completions in Deepwater and Marginal Field Developments – 6-11 November

Middle East

Dabai, UAE

- Well Testing – 3-8 December

1995

Asia Pacific

Nusa Dua, Indonesia

- Challenges in Gas Reservoir Management - 7-12 May

North America

Snowmass Village, Colorado, USA

- Horizontal Well Evaluation and Performance Assessment – 30 July-4August
- Risk and Confidence in Reserves Evaluation – 30 July-4August
- Multidisciplined Analysis and Solutions to Rejuvenating Old or Marginal Fields – 6-11 August
- Profitable Development of Deepwater Prospects – 6-11 August

Europe

Seefeld, Austria

- The Evaluation, Development and Management of Layered Reservoirs - 10-15 September
- Coiled Tubing Technology and Applications - 17-22 September
- The Handling, Treatment and Disposal of Produced Water – 24-29 September

Middle East

Dubai, UAE

- Horizontal Wells: Problems and Solutions - 25-30 November

South America and Caribbean

- Artificial Lift in the 90's and Beyond: The Stripper Well Challenge – 5-10 November

1996

North America

- Maximizing Returns in Well Construction - Low Cost Drilling?
- SPE/SEG Optimizing Reservoir Development and Production Through Application of Geophysics
- Applications of Borehole Imaging Technologies
- Frac-and-Pack and Other Sand Control Methods

Europe

Aviemore, UK

- New Advances in Productivity Optimization Technologies - 8-13 September
- Upscaling From the Laboratory to the Field - 15-20 September
- Drilling Fluids Optimization - A Multidisciplinary Approach – 22-27 September

Middle East

Duabi, UAE

- The Handling and Treatment of Produced Water – 23-28 November

Asia Pacific

Nusa Dua, Indonesia

- Innovation in Developing Low Profitability or Marginal Offshore Oil Fields – 12-17 May
- Production and Handling of Waxy Crudes/Condensates – 19-24 May

South America and Caribbean

Puerto La Cruz, Venezuela

- Heavy Oil Resources - Technology, Challenges and Opportunities – 3-8 November

1997

North America

Breckenridge, Colorado

- 3D Reservoir Characterization Technology: A Vision for the Future - 6-11 July
- Emerging Applications of NMR Technologies in Formation Evaluation - 6-11 July
- Multilateral Completion Technology – 13-18 July
- Advances in the Use of Floating Production Systems – 13-18 July

Europe

Aviemore, UK

- Multiphase Production – 14-19 September
- Advances in History Matching and Reservoir Monitoring – 21-26 September
- Advanced Well Geometries - How Do They Impact Oilfield Management? – 28 September – 2 October

Middle East

Alexandria, Egypt

- Coiled Tubing Applications to Advanced Wells – 25-30 October

Asia Pacific

Nusa Dua, Indonesia

- New Trends in Gas Transportation Technology – 11-16 May
- Risk Assessment and Management of Uncertainty – 18-23 May

South America and Caribbean

Angra dos Rios, Brazil

- Mooring and Station Keeping Technology for Deepwater Operations - 2-7 November

1998

North America

Breckenridge, Colorado, USA

- Dynamic Reservoir and Production Optimization Using Intelligent Wells – 5-10 July
- The Role of Fluids in Drilling and Completing High Angle and Horizontal Wells – 5-10 July
- Impact of Pore-Scale to Well-Test Scale Data Relationships – 12-17 July
- Hydraulic Fracture Diagnostic Methods – 12-17 July

Europe

Aviemore, UK

- SPE/EAGE Forum: Well Placement Using Advanced Geoscience and Visualization Techniques – 6-11 September
- Technical Solutions for Offshore Field Life Extension – 13-18 September
- Oil Recovery by Gas Injection: From Design to Operation – 20-25 September

Middle East

Alexandria, Egypt

- Managing Mature Reservoirs - Extending the Plateau – 31 October – 5 November

Asia Pacific

Nusa Dua, Indonesia

- Integrating Well Testing and Reservoir Characterization – 10-15 May
- Advances in Drilling Technology and Operations – 17-22 May

South America and Caribbean

San Carlos de Bariloche, Argentina

- Drilling Technology – Management and Integration for Growth – 8-13 November

1999

North America

Breckenridge, Colorado, USA

- Reservoir Engineering Aspects of Multilateral and Advanced Wells – 11-16 July
- Advances and Future Directions in Cased-Hole Measurement Technologies - 11-16 July
- Cementing for Harsh Environments – 18-23 July
- Environmental Concerns for the New Millennium – 18-23 July

Europe

Ste. Maxime, France

- Sand Prediction and Control – 12-17 September
- Natural Gas Hydrates in Production Operations – Problems and Solutions – 19-24 September
- Stimulation and Conformance Control in Unconventional Wells – 26 September – 1 October

Middle East

Muscat, Oman

- More for Less: The Case for Enhancing Well Productivity – 30 October – 4 November

Asia Pacific

Nusa Dua

- Stacked, Compartmentalized Reservoirs- Evaluation and Development – 16-21 May
Phuket, Thailand
- Frac-Pack and Unique Sand Control Completions - Applications and Techniques – 7-11
November

South America and Caribbean

Tobago, West Indies

- Deepwater Well Challenges – 31 October – 5 November

2000

North America

Breckenridge, Colorado, USA

- Appraisal and Development of Deepwater Reservoirs (SPE/SEG) – 9-14 July
- Flow Assurance for Subsea Operations – 9-14 July
- Geomechanics and Reservoir Management – 16-21 July
- Adding Value by Leveraging Risk, Options, and Portfolio Management – 16-21 July

Europe

Sainte Maxime, France

- Advancement of Spooled Tubing Technology in Oilfield Applications – 3-8 September
- Fractured Reservoirs: Challenges and Opportunities for their Integrated Characterization and
Exploitation– 10-15 September
- Impact of Drilling Operations on the Environment – 17-22 September

Middle East

Muscat, Oman

- Achieving World Class Drilling Performance – 4-9 November

Asia Pacific

Nusa Dua, Indonesia

- Fast Track: Exploration to First Oil – 14-19 May
- Drilling and Completion in Hostile Formations – 21-26 May

South America and Caribbean

Salvador, Brazil

- Field Reactivation – 29 October – 3 November

2001

North America

Park City, Utah

- Real-Time Data in Drilling – 29 July -3 August
- Reconciling Real-Time Production Optimization with Reservoir Management – 29 July -3
August
- Sub-sea Well Design and Intervention – 5-10 August
- The Big Crew Change – 5-10 August

Europe

Ste. Maxime, France

- Geosteering Technologies – 9-14 September
- Downhole Water Management – 16-21 September
- Wells - How Smart Can They Get? – 23-28 September

Asia Pacific

Nusa Dua, Indonesia

- The Application of Seismic Attribute Analysis and Geostatistics in Reservoir Prediction – 13-18 May
- Optimising Well Productivity with Modern Completion and Stimulation Practices – 20-25 May

South America and Caribbean

Margarita Island, Venezuela

- Underbalanced Operations vs Designer Fluids – 28 October-2 November

Middle East

Muscat, Oman

- Produced Water Management – The New Reality – 3-8 November

2002

North America

Park City, Utah, USA

- Enhancing Recovery from Deepwater Reservoirs – 7-12 July
- The Offshore Facility of the Future – 7-12 July
- E-Well and Wellbore Robotics – 14-19 July
- Decision-Driven Asset Development and Management – 14-19 July

Europe

Ste. Maxime, France

- Deepwater Completions – 1-6 September
- The “Smart” Field: A Multidisciplinary Forum to Explore New Ways to Make Assets More Productive – 8-13 September
- Managing Borehole Stability Through the Life of the Well – 15-20 September

Middle East

- Produced Water Management (Postponed from 2001)

Asia Pacific

Nusa Dua, Indonesia

- The Continuing Role of Well Testing - 12-17 May
- Delivering the 40,000 ft. ERD Well – 19-24 May

South America and Caribbean

Palm Beach, Aruba

- Seismic for Reservoir Management – 27 October-1 November

2003

North America

Park City, Utah, USA

- Eliminating Wastes and Emissions from Exploration and Production Operations and Our Services: Is this a Desirable and Achievable Goal? – 13-18 July
- The Drilling Rigs of the Future – 13-18 July
- Reservoir Simulation: A New Era – 20-25 July
- Decommissioning and Well Abandonment – 20-25 July

Europe

Sainte Maxime, France

- Multiphase Capabilities in Frontier Environments – 31 August – 5 September
- Accessing and Producing Remaining Oil – 7-12 September
- Immersive Visualisation: A Way Towards Improving Decision-Making – 14-19 September

Middle East

Muscat, Oman

- Carbonate Reservoir Development: Facing the Challenges – 11-16 January

Asia Pacific

Phuket, Thailand

- Horizontal Wells—Saviours or Trouble Makers: A Decade of Experience – 11-16 May
- Production Optimization – 18-23 May

South America and Caribbean

Salvador, Brazil

- Field Development Planning - October

2004

North America

Broomfield, Colorado

- Enhancing Value of Mature Fields: Technology or Efficiency - 20-25 June
- Natural Gas: The Next Imperative - 20-25 June
- The One-Trip Well – 27 June-2 July
- Well-Less Exploration and Minimal Appraisal – 27 June-2 July

Europe

St. Saint Maxime, France

- Smart Drilling – 5-10 September
- Sand Control and Management – 12-17 September
- Tight Gas Development – 19-24 September

Middle East

Muscat, Oman

- Smart Wells: How Smart Can They Get? – 10-15 January
- Mature Reservoirs: The Appropriate Application of Technology – 17-22 January

Asia Pacific

Phuket, Thailand

- Challenges in Completions for 2007 and Beyond – 9-14 May
- Innovations for Gas Field Development – 16-21 May

South America and Caribbean

Mar del Plata, Argentina

- Adaptive Development and Management of Oil and Gas Fields – 7-12 November

2005

North America

- Technology Development-Who Pays and Who Plays - 19-24 June
- The Future of Drilling Producing Complex Wells- 19-24 June
- Deep and Getting Deeper-The Future of Deepwater Development – 26 June-1 July
- Reservoir to Sales Meter- The Future of Measurement, Automation and Remote Control – 26 June-1 July

Europe

Dubrovnik, Croatia

- Understanding and Modelling the Near Wellbore – 4-9 September
- Making Our Mature Fields Smarter – 11-16 September

Cascais, Portugal

- Risk Management and Intergrated Business Modelling – 16-21 October
- Molecules on the Move: Physico-Chemical Effects on Multiphase Transport – 23-28 October

Middle East

Sharm Al-Shaikh, Egypt

- Contracting Strategies for Well Construction and Maintenance 5-10 February
- Complex Wells – 12-17 February

Asia Pacific

Phuket, Thailand

- Stagnation or E-volution: Changing Production Management – 8-13 May
- Stimulation for the Future-Increasing Production, "Reducing Cost" – 15-20 May

South America and Caribbean

Los Cabos, Mexico City

- Future Challenges in Carbonate Reservoirs Development - 23-28 October

2006

North America

Broomfield, Colorado

- Surviving and Thriving in Deepwater – 18-23 June
- Characterization and Modeling of Naturally Fractured Reservoirs – 18-23 June
- Enhanced Oil Recovery-What's Next? – 25-30 June
- CO2 Capture and Storage-A Dual Benefit for the Oil and Gas Industry – 25-30 June

Europe

Dubrovnik, Croatia

- Low Cost Reservoir Access and Interventions – 3-8 September
- From Casing Design to Well Life Production? – 10-15 September
- Who Owns the Deepwater Riser and Who Solves its Production Problems? – 17-22 September

Cascais, Portugal

- The Heavy Oil Challenge: Recognition, Evaluation and Mobilization – 22-27 October

Asia Pacific

Macau, China

- Hydraulic Fracturing Beyond 2010 – 7-12 May
- The Future of Smart Fields – 14-19 May

South America

Costa so Sauipe, Brazil

- Advanced Drilling Techniques – 29 October – 3 November

2007

North America

Colorado Springs, Colorado

- Unconventional Gas Resources – 3-8 June
- The Future of Profit Prediction – 3-8 June

Kananaskis, Canada

- Challenges in Unconsolidated Reservoirs: Reservoir Performance – 26-31 August

Latin America

Puerto Vallarta, Mexico

- Reservoir Modeling for Asset Teams – 21-26 October

Europe

Dubrovnik, Croatia

- 70% Recovery—A Dream or Reality: From Smart Water to Microbes – 9-14 September
- Evolving Mud Operations in a Changing Drilling World – 23-28 September

Cascais, Portugal

- Real-Time Production Optimisation – 16-21 September

Asia Pacific

Phuket, Thailand

- Stranded Gas: The Next Challenge – 6-11 May

Middle East

Sharm El Sheikh, Egypt

- The Heavy Oil Challenge: Completions Design and Product Management – 9-13 February 2008

2008

North America

Colorado Springs, Colorado, USA

- Reservoir Geomechanics – 1-6 June

Kananaskis, Alberta, Canada

- Steam Generation – 24-29 August
- R&D Meets Reality: Processing Technologies That Will Make a Difference – 24-29 August

Latin America

Dominican Republic

- Improved Recovery in Offshore Reservoirs – 26-31 October

Europe

Cascais, Portugal

- Revisiting Water Injection in the 21st Century – 31 August – 5 September

Dubrovnik, Croatia

- Well Construction in 2020+ - 14-19 September
- Terabytes Petabytes in Asset Management – 21-26 September

Asia Pacific

Phuket, Thailand

- Deepwater and Harsh Environment - 11-16 May

Middle East

Sharm El Sheikh, Egypt

- Naturally Fractured Carbonate Reservoirs: Characterisation, Modelling and Stimulation – 16-21 October

2009

North America

Colorado Springs, Colorado, USA

- Artificial Intelligence in the E&P Industry: Exploring Opportunities for Better Decision Making – 31 May – 5 June
- Maximizing Oil Recovery in the 21st Century – 31 May – 5 June

Kananaskis, Alberta, Canada

- The Future of Stimulation in Tight Gas and Shale – 16-21 August

Europe

Cadiz, Spain

- CO2 Capture and Storage: Can the Oil and Gas Industry Support This Development and Deployment? - 13-18 September
- The Battle to Reduce Drilling NPT: Technology, Processes and People – 20-25 September
- Getting to Robust Production Forecasts – 11-16 October

Asia Pacific

Kota Kinabalu, Sabah, Malaysia

- Overcoming Barriers to Deliver ERD Wells Beyond 15km – 19-24 April

Middle East

Hammamet, Tunisia

- The Heavy Oil Challenge: Completion Design and Production Management - 17-22 May

2010

North America

Park City, Utah, USA

- Meet me at the Wellhead – Enhancing the Value Chain in Offshore Installations – 20-25 June - Cancelled
- Getting to Zero-An incident Free Workplace: How do we get there? - 8-11 August
- Lost Circulation and Wellbore Strengthening – 8-13 August

Colorado Springs, Colorado, USA

- Petrophysics Meets Well Testing – 27 June – 2 July
- Geosteering Technology – 27 June – 2 July

Europe

Paris, France

- Accelerating the Time to 1st Hydrocarbons: Fast Track Field Development; Appraisal Through to Sustainable Production – 26 September – 1 October
- The Future of Reservoir Management – 3-8 October
- The Automated Well Construction Factory – 10-15 October

Asia Pacific

Langkawi, Malaysia

- Reservoir Simulation- Beyond Tomorrow – 10-15 May

Middle East

Hammamet, Tunisia

- Advancing Well Integrity Technology – 16-21 May

2011

North America

Santa Fe, New Mexico

- Reservoir Management 2020: Surveillance, Analysis and Optimization – 22-27 May
- Beyond Conventional Sand Control – 15-20 May

Ojai, California

- Digital Rocks: Realizing Step Change in Value of Laboratory Data – 14-19 August

Asia Pacific

Bali, Indonesia

- Economic and Sustainability Challenges in the Future Development of Sour Gas – 8-13 May

Middle East

Dubai, UAE

- Advanced Well Architectures to Optimize Reservoir Management – 15-20 May
- Uncertainty Management and Risk Mitigation Over Asset Lifecycles – 28 November – 1 December

Europe

The Algarve, Portugal

- Unlocking the Potential of Nanotech for Exploration and Production – 25-30 September
- Shale Gas: Beyond Current Technologies and Going Global – 2-7 October
- CO2 Geological Storage: Will we be ready in time? 9-14 October

2012

North America

Pinehurst, North Carolina, USA

- The Future of Shale Oil Exploitation – 12-17 February

Park City, Utah

- The Future of Horizontal Well Completions in Unconventional Reservoirs – 5-10 August

Carlsbad, California

- Water Management: Is an Ounce of Prevention Worth a Pound of Cure? – 22-26 October

Santa Fe, New Mexico

- Novel Techniques for Reservoir Modeling – 4-9 November

Asia Pacific

Xi'an, China

- Excellence in Fracture Stimulation-The Present and Future of Affordable Energy – 20-25 May

Middle East

Dubai, UAE

- Improving the Healthcare of Oil and Gas Fields-Sense, Compute, and Act – 2-6 September

Europe

The Algarve, Portugal

- Advanced Chemicals and Fluids for the Oilfield - 30 September – 5 October
- Next Generation Well Control – 14-19 October
- The Implications of a \$200/bbl World- How will the industry change if the \$200 barrel becomes a reality in the market? Can supply expand to keep up with demand exceeding projections? – Cancelled

2013

Asia Pacific

Siem Reap, Cambodia

- 70% Recovery: From Nano to Macro Scale – 19-24 May

Middle East

Muscat, Oman

- Future Systems for Extreme Environments – 27-30 May

North America

Asheville, North Carolina, USA

- The Quest to Reduce the Environmental Footprint – 21-26 July

Coeur d'Alene, Idaho, USA

- 2020 Foresight – Ensuring Education Excellence for Upstream Engineering Resources – 4-9 August

Rancho Mirage, California, USA

- Artificial Lift in Offshore and Deepwater Environments – 20-25 October

Europe

- Adaptive Well Construction – 13-18 October
- Managed Pressure Drilling – Niche Technology or the Future of Drilling? – 20-25 October

2014

Europe

Vilamoura, Portugal

- Zonal Isolation to the Extreme – 16-21 February

Cannes, France

- An Ounce of Prevention: Maintaining Well Control Barriers Under Any Condition – 31 August – 5 September

North America

Newport Beach, California, USA

- Numerical Modeling in Unconventional Reservoirs – 23-28 February

Santa Fe, New Mexico, USA

- Well Construction Efficiency: NPT, Reliability, and Process Improvement - 13–18 July
- Low Carbon Intensity Processes for Low-Mobility Oil Recovery - 27 July–1 August

San Diego, California, USA

- Exploitation of Tight Carbonates – 1-6 June

Middle East

Aba Dhabi, UAE

- Overcoming Challenges in Developing Shale and Tight Gas Reservoirs – 17-20 March

Asia Pacific

Bali, Indonesia

- High CO₂ and H₂S Gas Fields Development – 18-23 May

2015

North America

La Jolla, California, USA

- Physics and Chemistry of Nanoscale Rock - 22 - 26 March

Miami, Florida, USA

- Health and Social Responsibility: The Role of the Oil and Gas Industry in Community Health - 31 May - 3 June

Newport Beach, California, USA

- Flow Assurance – The Future State of the Art - 31 May - 5 June

Latin America

Cancun, Mexico

- SPE Forum: Enhanced Oil Recovery – The Future is Now! - 18 - 23 October 2015

Middle East

Istanbul, Turkey

- How Can We Double Carbonate Reservoir Recovery? - 23 - 26 February

Asia Pacific

Kuala Lumpur, Malaysia

- Drilling Window Prediction and Real-Time Management: Getting It Right the First Time - 17 - 20 May

2016

Asia Pacific

Kuala Lumpur, Malaysia

- The Role of Geomechanics in Conventional and Unconventional Reservoir -Performance and Management
22 - 24 May

Middle East

Dubai, UAE

- Next Generation of Smart Reservoir Management: The Eminent Role of Big Data Analytics - 18-21 January

North America

San Antonio, Texas, USA

- Key Factors for Success in Unconventional Reservoir Development - 12 - 17 June

2017

North America

San Antonio, Texas, USA

- “Waterless Fracturing” – Reducing Fresh Water Use for Reservoir Stimulation in a Future Water-Constrained World - 5 - 9 November
- Enhanced Oil Recovery in Unconventional Reservoirs - 5 - 10 November

2018

North America

Colorado Springs, Colorado, USA

- Drilling and Completion Geomechanics – Integration Knowledge and Workflows to Maximize Asset Value – 8 - 13 July

Fort Worth, Texas, USA

- Production in Horizontal Unconventionals - 5 - 9 November

San Antonio, Texas, USA

- Carbon Capture, Utilization and Sequestration - 26 - 30 November

2019

Europe

The Hague, The Netherlands

- Shaping the Next Wave in Well Plugging and Abandonment - 18 - 22 March

North America

Phoenix, Arizona, USA

- Understanding the Reservoir Beyond the Wellbore – 21-23 October
- Late Life Unconventionals – Unlocking Incremental Value – 10-15 November

2020

North America

Austin, Texas, USA

- Unlocking the Value from Digital across the Full E&P Value Chain - 10-14 February

Virtual

- Is Cyclic Gas Injection EOR the Future for Unconventional Resources? - 2-19 November

2021

North America

Virtual

- How Can Effective Adoption of Well Construction Technologies Advance Asset Value? - 17-27 May
- The Next Chapter in the Midland Basin - Learning from the Past and Opportunities for the Future - 3 – 12 August
- The Next Chapter in the Eagle Ford - Learning from the Past and Opportunities for the Future 16 – 25 August
- The Next Chapter in the Bakken - Learning from the Past and Opportunities for the Future - 17 – 26 August
- The Next Chapter in the Delaware Basin – Learning from the Past and Opportunities for the Future - 31 Aug – 9 September
- Haynesville, the Next Chapter in Unconventionals - Learning from the Past and Opportunities for the Future - 26 October – 4 November

2022

North America

Galveston, Texas, USA

- Future Stimulation and Completions to Maximize Unconventional Production - 28 March – 1 April

Denver, Colorado, USA

- SPE Forum: The Role of Oil and Gas in Emerging Hydrogen Markets - 22 – 26 May

Virtual

- SPE Virtual Forum: The Next Chapter in Unconventionals - Learning from the Past and Opportunities for the Future of the Marcellus and Utica Shale Plays - 23 August – 1 September

2023

North America

New Orleans, Louisiana, USA

- Addressing Today's Technical Challenges to Commercialize Future Carbon Transport and Sequestration Projects - 6 – 9 November

Galveston, Texas, USA

- Reducing the Impact of Casing Deformations in Multi-fractured Horizontal Wells - 4 – 7 December

2024

North America

Dallas, Texas, USA

- Artificial Intelligence in Upstream E&P 2030 - 4 – 9 February

Banff, Alberta, Canada

- Methane Emissions Management for a Sustainable Future - 23 – 25 April

Montgomery, Texas, USA
