THE WORLD'S PREMIER DRILLING EVENT

London, UK (January 2019) – Reach a highly targeted audience of international drilling professionals at the **SPE/IADC International Drilling Conference and Exhibition** taking place at the World Forum, The Hague, 5-7 March 2019.

With an aim of accelerating progress in our industry by connecting forward-thinking technical presentations to open discussion forums, the technical programme enables E&P professionals to see through today's challenges and work collaboratively toward solutions that will create a stronger future for an increasingly energy-driven world.

Technical Session Topics Include: Fluids and Waste Management; Threaded Connections for Tubulars; Advances in Drill Bit and Downhole Tool Technology and Applications; Innovative Technologies for Measurement, Modeling and Communication; Drilling Automation; Well Placement; Managed Pressure Drilling; Well Cementing and Zonal Isolation; Geomechanics; Offshore Drilling, and more.

[Take a look into the conference programme and the selected technical papers that will be presented at the conference>>](#)

The event is supported by a broad range of key stakeholders from the Drilling world including some of the largest oil and gas players in the industry including Saudi Aramco, Shell, Transocean, BP, Abaco Drilling Technologies, Merlin ERD, Baker Hughes GE, Weatherford, Schlumberger, KCA Deutag, Exebenus, CAN by Neodrill and Drill-Quip.

Renowned for over 35 years as the home of world class technical content, the event is developed for the drilling industry by the drilling industry and is the perfect forum to advance your scientific understanding of drilling in oil and gas exploration and production.

Registration

To find out more and to register for the SPE/IADC International Drilling Conference and Exhibition, please visit: www.spe.org/go/19dc

**Complimentary press registration is available to members of the working press – [register here](#).*

"The SPE/IADC drilling conference is one of the few that focuses on drilling optimisation and especially drilling dynamics. The conference provides a very good networking and knowledge sharing opportunity." **Andreas Hohl, Baker Hughes GE**

About SPE

The Society of Petroleum Engineers (SPE) is a not-for-profit professional association whose members are engaged in energy resources development and production. SPE serves more than 156,000 members in 154 countries worldwide. SPE is a key resource for technical knowledge related to the oil and gas exploration and production industry and provides services through its publications, events, training courses, and online resources at www.spe.org.
