# Women In Energy (WIN) Committee 2019 - 2020

**Yogashri Pradhan**
*Endeavor Energy Resources*
WIN Chair

Yogashri is a reservoir engineer for Endeavor Energy Resources. At Endeavor, she is involved with field development planning for unconventionals in the Midland Basin. She's also worked as a senior production engineer for Texas Oil and Gas Institute and Devon Energy, overseeing various production optimization studies and field operations in the Permian Basin.

Yogashri is an active SPE member at the local and international levels through technical conference committees, study groups, authoring/co-authoring seven technical publications, and community service initiatives. She is the recipient of Houston Engineers Week Young Engineer of the Year representing SPE-Gulf Coast Section for 2018 and the International Young Member Outstanding Service Award from SPE in 2018.

Yogashri graduated from the University of Texas with a Bachelor's in Petroleum Engineering in 2015 and is pursuing her Masters in Petroleum Engineering at Texas A&M University. She is a registered Professional Engineer in the state of Texas.

**Zahraa J Alkalby**
*Imperial College London*
WIN Deputy Chair

Zahraa is a Petroleum Engineer with more than four years of experience working in the oil & energy industry. Skilled in reservoir engineering, reservoir simulation, reservoir performance analysis, petroleum data analytics, geological model development, improved and enhanced oil recovery analysis and simulation, reservoir fluid characterization, well performance and process engineering, in addition, full-field development and economic evaluation.

She is an active member of SPE International and currently serves as SPE WIN Deputy Chair. She previously held several volunteer positions within SPE international. She holds MSc in Petroleum Engineering from Imperial College London.

**Amber Sturrock**
*Chevron*
WIN Advisor

Amber is a Strategy and Planning Analyst for Chevron focusing on the Gulf of Mexico. Her expertise lies within subsea operations and subsea brownfield expansion projects. These projects have been located in the Gulf of Mexico (Jack / St. Malo, Blind Faith, and Tahiti developments) and offshore Equatorial Guinea (Zafiro development). Her early career provided a foundation in completions and workovers supporting both Southern Louisiana and West Colorado (Piceance basin).

Amber is a 2014 recipient of the Society of Petroleum Engineers International Young Member Outstanding Service Award and holds a BS in Petroleum Engineering from Louisiana State University. She and her husband spend their weekends enjoying Houston's many parks and museums with their two young sons.

# Women In Energy (WIN) Committee 2019 - 2020

**Dr. Linda A. Battalora**
*Colorado School of Mines, Petroleum Engineering Department*
WIN Leadership Chair

Linda is a Teaching Professor in the Petroleum Engineering Department at the Colorado School of Mines (Mines) and the Ben L. Fryrear Endowed Chair for Innovation and Excellence. She has BS and MS degrees in Petroleum Engineering from Mines, a JD degree from Loyola University New Orleans School of Law, and a PhD in Environmental Science and Engineering from Mines.

Prior to joining Mines, she served in various roles in the oil and gas industry including operations engineer, production engineer, attorney, and international negotiator for oil and gas project development. Linda serves as Chair of the SPE Sustainable Development Technical Section, a member of the Health, Safety, and Environment (HSE) and Sustainability Advisory Committee, the Engineering Professionalism Committee, and the Women in Energy Committee.

She is a SPE Distinguished Member and a SPE Distinguished Lecturer (2019-2020). She has received several SPE regional awards including the 2019 Rocky Mountain Regional Award for Sustainability and Stewardship in the Oil and Gas Industry.

**Mariam Seif Eldine**
*Schlumberger*
WIN ATCE Deputy Chair

Mariam is a Data Specialist at Schlumberger. She has been as Geosolutions Geophysicist for 5 years prior her current position. She holds a Bachelor of Science in Petroleum Geosciences from Faculty of Science, Alexandria University. She is an active member of SPE International and currently serves as SPE WIN ATCE Deputy Chair. She previously held several volunteer positions within AAPG Alexandria student chapter and AAPG Egypt Young professionals.

**Patricia Fidel**
*PF Consulting*
WIN PR and Media Chair, LATAM Region Leader

Patricia is a seasoned engineer with more than 25 years' experience in different areas of the O&G industry. Started in Drilling and Completion operations and later on she moved to Safety and Risk Evaluations for field operations. She also performed Risk Evaluations in double hull Oil Tanker ships, suppliers, and port terminals.

She worked at PanAmerican Energy in her early years and lately as HSE Manager for Americas Petrogas and Senior Consultant for Dupont Sustainable Solutions, performing projects in Argentina and Brazil. At present she runs her own Consulting firm dedicated to Operational Risk Management.

Active SPE Member since 1990, she has joined SPE Argentina Executive Committee as Publicity chair, creating the local journal Contacto SPE and Education Programming later. In2016, she received an award in recognition for her personal and professional contribution to SPE Argentine Section, and for the 20th Anniversary of the creation of the local Contacto SPE magazine.

# Women In Energy (WIN) Committee 2019 - 2020

**Stacey Early**
*Transocean Offshore Deepwater Drilling Inc.*
WIN Section and Chapters Chair

Stacey is Director, Global Marketing Contracts and Technical Proposals for Transocean, the world's largest deepwater drilling contractor. In this global role, she establishes corporate contract and risk management policy, and directs the activities of a team of contract negotiators and proposals managers in 6 countries on four continents focused on securing work with international oil and gas operators. Prior to joining Transocean fourteen years ago, she was with ExxonMobil for 17 years where she served in Global Rig Coordination, corporate planning and drilling engineering. In addition, she was with Pennzoil for four years as a drilling engineer and offshore rig supervisor.

Stacey has a B.S. in Petroleum Engineering from Texas A&M University and an MBA from Tulane University in New Orleans. She is a member of the Society of Petroleum Engineers where she serves as Chair of the Women in Energy Sections and Chapters sub-committee, and served 6 years as Chair of the International Association of Drilling Contractors Contracts Committee.

**Gary M. Lohse, P.E.**
*Cambrian Innovation*
WIN Partnership and Outreach Chair

Gary is the Midwest Regional Sales Manager at Cambrian Innovation. Gary has a BS in Environmental Engineering from the Pennsylvania State University, an MS in Civil Engineering from the Arizona State University, a Professional Engineer's License in Arizona, Pennsylvania and New Jersey and has earned an operator license for Wastewater Collection and Treatment and for Water Distribution and Treatment in the State of Arizona.

He has over twenty five years of experience in the water and waste water industry and has worked for a variety of firms including HDR Engineers, American Water, De Nora and Veolia. Gary has been involved in water and wastewater treatment for all aspects of the Petroleum Industry including off-shore drilling rigs, onshore frac water treatment, recycling of produced water, water-supply and wastewater treatment for the refining industry. Gary is active in SPE as WIN Partnership and Outreach Sub Committee Chair.

**Patricia Zegers-de-beyl**
*Saleve Energy Partners*
WIN Partnership and Outreach Deputy Chair

Patricia has more than 25 years' experience in the Oil and Gas industry in technical and commercial roles. Currently she is the Managing Director of Salève Energy Partners, a consultancy that advises oil companies on business development, commercial and strategic issues. She has worked for a variety of companies, including Wintershall, OMV, CNR International and Halliburton.

Patricia has a unique combination of experience: oil - gas - LNG; upstream - midstream - downstream; oil company - service company; office - on the rig; operated - non-operated; head office - branch office. Based in The Netherlands, she has worked on projects in Europe, Africa, Middle East and the Caspian Region.

# Women In Energy (WIN) Committee 2019 - 2020

**Margaretha (Peggy) Rijken, PhD.**
*Chevron*
WIN ATCE Chair

Peggy is the Team Leader for the Productivity Geomechanics team at Chevron. She has held prior assignments as a hydraulic fracture engineer and as a geomechanics specialist. Peggy has authored and/or co-authored more than 25 papers and holds a patent in stimulation technology.

Peggy was the 2019 SPE ATCE Program Committee Chairperson and currently serves on the SPE Completion Advisory Committee. She has served on multiple ATCE technical sub committees, the SPE Business, Management and Leadership committee, the ATCE 2019 SPE Executive Advisory Committee, and the SPE Talent Taskforce. She is the recipient of the 2019 SPE Distinguished Membership Award and the recipient of The University of Texas Distinguished Alumni of Petroleum and Geosystems Engineering award (2015).

Peggy is a petroleum engineering graduate of the University of Texas at Austin (PhD) and holds a Masters in Mining and Petroleum Engineering from Delft University of Technology in The Netherlands

**Cesar Augusto Patiño Suarez**
*Ecopetrol SA*
WIN Board Liaison

César Patiño, Leader of Latin America and Caribbean SPE region. Petroleum Engineer, MBA , Master Innovation, Estudies at Government, Innovation , Technology and Knowledge management. César has 23 years of experience in the Oil and Gas Industry, including Ecopetrol Professional, EOR Technology Group, Technology Strategic Unit, Senior Petrophysicist , Reservoir Engineer ,G&G and Operations Manager Weatherford, Wireline Schlumberger.

Founder of SPE YP Colombia, SPWLA CAFE Chapter, Innovative ideas at Colombian and Latin America and Caribbean sector. Advise on strategic innovative , clustering and entrepreneurship proposals in the frame of new technology trends, vision , with a great base on sustainability and social valued added . Member of Gender diversity Group at ECOPETROL.
